

# Bonastre Duo

## A single disc to polish and keep your floors always bright

**Bonastre Duo** Bonastre Duo is a revolutionary ideal disk for soil maintenance with a scrubber. With a single disc you can brighten up and keep your floors always very bright. It has a surprising capacity to recover the brightness, even in high traffic areas.

It is 30% faster than other conventional discs, since they are necessary to pass less for intense brightness. It can also be used with machine trimmer and high speed machines. It is respectful with the environment and the work environment of chemicals and odors free.

It is the ideal tool for any scrubber and if you use it daily, you will never have to polish the soil with traditional methods. Only with water

### Characteristics

- » 50% faster than Bonastre Pads.
- » Shine more in less past.
- » It is available in any measure.
- » It produces a non-slip shine, even wet.

BONASTRE  
SYSTEM

A single disc to polish and keep your floors always bright

## Instruccions

In already polished or very good grounds you can use Bonastre Duo directly, but in some cases you need to insist a little more to get a decent glow, so it is always faster to prepare the surface with the Pad 1 Red disc.

**with rotary** Add water and remove it when it is dirty until it reaches the desired shine.

**with scrubber**, Based on going past the brightness will rise, if in 20-30 passes we do not see an important difference.

**Option 1:** Spend the disc 1 Red by micro polishing the ground and removing some stripes to achieve a sharper intensity with the Bonastre Duo.

**Option 2:** If you want a mirror brightness, prepare the surface with Bonastre Pro and then rub with Bonastre Pro obtaining a spectacular glittering mirror.

**In plastic or concrete floors** You can use Bonastre Duo dry with high speed machines to achieve a strong mechanical shine

## Soils where can I use Bonastre Duo?

Floor	Deep cleaning	Polishing	Daily cleaning
Terrazzo	X
